

Biometry

Venn Life Sciences offers a unique set of high quality, innovative data management, biostatistics and methodology services, utilising the very best technologies coupled with clinical trial expertise.

Our services include:

DATA MANAGEMENT

With unique knowledge of multiple clinical data management systems, Venn's Data Management team has the ability to offer the following

- CRF Design to Data Management report
- Database design & data collection:

- Data cleaning
- CDMS source data integration into SAS®
- Medical coding: MedDRA, WHOdrug
- 3rd Party Data Integration (central labs)
- SAE reconciliation
- Quality Control and Database freeze

Certified training obtained in May 2016

STATISTICS

With over 10 years' experience, our team of biostatisticians has accumulated extensive skills and knowledge

- Statistical activities from SAP (Statistical Analysis Plan) writing to TLF (Table, Listing, Figures) deliverables and/or statistical reports
- Sample size calculations
- Full project organisation and coordination, from Charter writing to TLF for DSMBs / DMCs meetings
- Oversight of independent statistician :
 - Elaborate unblinded results for DSMBs/DMCs and interim analysis
 - Guarantee the unblinded posture/state of the statistical team

Field of expertise: Time series, survival analysis, statistical modeling, multivariate analysis

METHODOLOGICAL & STATISTICAL CONSULTING

Venn's consultancy is unique in its combination of medical methodology, statistical competencies and medical knowledge

- CDP (Clinical Development Plan) & study design
- Innovative / adaptive designs
- Clinical trials simulations
- Regulatory support for special protocol advice / scientific advice / Pre-IND meetings, MA submissions and Answers to Regulatory Authorities questions.
- Membership of study committees such as: DSMBs, iDMCs & Event adjudication committees

Fields of expertise: innovative designs, clinical trials simulations, linear and non-linear modeling, rare diseases and small populations

MEDICAL WRITING

Venn's medical writing team can assist at any point in the product development stage. We offer a complete writing service from individual documents to full medical writing programs

- Clinical study protocol
- Clinical study report
- Scientific publications and posters
- ICSRs: individual case safety reports (narratives)
